

## The Flag!

It speaks sublimity, and every part has a voice. Its stripes of alternate red and white proclaim the original union of thirteen states to maintain the declaration of independence. White is purity; red for valor; blue, for justice. —Chas. Sumner (1873)

My Dear Sir:—

Your country and mine is now actively engaged in the greatest war the world has ever known. There can be no doubt that the countries, best able to maintain their food supplies will be the victors in the end. We and our allies must, for the good of humanity, win this conflict.

The farmers of the United States must furnish the food supplies for ourselves and our allies. It will be not only profitable but patriotic to do so.

1. This bank desires to do its part in helping you in this great undertaking. We are willing to extend to you any amount of credit that your conditions will warrant, to purchase more stock, tools, seeds or for the hire of additional labor.

2. There will be a large crop of vegetables and fruits, none of which should go to waste, but should be canned or dried, for winter use and for sale on the market. There will be greater demand for all the excess than can be produced. The women on the farm are especially urged to can all vegetables and fruits that they possibly can.

3. In the opinion of the best experts there is every indication that this war will not end quickly but will be long drawn out. Farmers should not, therefore, sacrifice immature animals, but should make them as large as possible.

Breeding stock should be kept. It will be needed more than an at any other time in the history of our country.

Very truly yours,

THE LINCOLN COUNTY NATIONAL BANK,

Stanford, Kentucky.

Slender people and stout, short people and tall—both men and boys—millions have found complete satisfaction and underwear comfort in Munsingwear. Nine million garments a year do not supply the demand.

Of particular interest to men is the announcement that the Munsingwear line now includes loose-fitting athletic suits in an attractive variety of fine woven fabrics, accurately sized.

During April German submarines are reported to have destroyed ships whose combined tonnage was 400,000. At this terrible rate, unless greater effort than has so far been made to stay the destruction, it will be impossible to provide the allies with food or other supplies and the Germans will win, as they recognize they must, solely by submarine warfare. The problem of dealing with it has engrossed the best thoughts of the country and the Naval Consulting Board, after examining 500 or more inventions, thinks it has one that will solve the menace. Let us pray that it has and that the terrible destruction of lives and property will be eliminated. With nearly all the world against her, Germany must not be permitted to be mistress of the seas and cause all who sail them to do so at their peril.

A few people in Lexington, who are obsessed with the idea that it is the hub of the universe as well as of the blue-grass, made the city commissioners believe that there was a general demand that the clocks be turned up an hour for six months of the year and caused them to issue an order to that effect, but when the true facts were known and protests came in thick and heavy the order was rescinded by a unanimous vote. With the city having one time, the country people, the railroad and contiguous cities another, endless confusion would have resulted.

A quart a month is the limit citizens of West Virginia will be allowed to indulge in, strong drink, according to a law passed by the recent Legislature and which has just become effective. The new law prohibits any person from carrying into the State more than a quart in any 30 days. It is hoped and believed that this will amount to practical prohibition, but whether or not it will remain so be seen.

We appreciate the compliment of its value that the reproduction of our

"Go-To-Sunday-School" editorial in the Somerset Journal implies, even if Brer Williams forgot to give us credit. We are always glad, however, to assist the boys in any way we can, so help yourself, old man.

The sad news is sent broadcast that beer will be raised fifty cents on the barrel, but there is some comfort in the thought that "hops" can be had at the old price.
